

# E-mail Clouds

Dear Friend,

Yours is one name that was given to me by \_\_\_\_\_ when I asked her who her biggest supporters are. You are clearly very important in the life of this young person. There is a saying that it takes a village to raise a child. You represent \_\_\_\_\_'s village of support. To help cheer her along her life path, I request that you please send me a list of five to ten amazing things about this young person and one to two dreams or hopes you have for her. This exercise may take you up to twenty minutes, but I believe it will deeply touch the heart and soul of someone who thinks the world of you. Please respond to this email in the next three days with \_\_\_\_\_'s name in the subject line so I can compile all of her responses. Thank you in advance for your commitment to creating a better and stronger community for the next generation.
